

Challenge 05

for loop

1) Using for loop print an output as mentioned below:

1
3
5
7
9

2) Using for loop and if statement print an output as follows:

1
3
5
7
9
11

for in loop

2) Declare an object like this `const object = { a: 1, b: 2, c: 3 }`; and print 2 outputs as mentioned using `for in loop`.

You have to use two `for in` loops.

a: 1
b: 2
c: 3
and
1
2
3
